

# Automatic Transmission Fluids

Our Automatic Transmission Fluids are designed to meet the extreme demands of today's automatic transmissions. Made from highly refined base stocks and performance tested additives, these fluids will provide long transmission life and smooth operation throughout the full range of temperature and driving conditions. They provide resistance to heat, oxidation, corrosion, foaming, and will enhance friction control, cleanliness, and load carrying ability. Keep your car's transmission running smoothly. Give it Ring-Free, a trusted name in lubricants for over 70 years.
